

The background of the cover is a vibrant, stylized illustration in shades of orange, red, and yellow. It depicts a dynamic scene with various Matchbox toy vehicles and figures. In the upper left, a boat is labeled 'SRN6'. A figure in a dark suit stands near a car. A large, stylized 'X' is visible in the upper right. In the center, a figure in a white suit is running. A car with the number '33' is shown. In the foreground, a car with a circular logo on its side is prominent. To the right, a car with a figure inside is shown. The overall style is reminiscent of mid-20th-century comic book art.

# MATCHBOX<sup>®</sup>

COLLECTOR'S CATALOG U.S.A. EDITION 1972

# MATCHBOX<sup>™</sup> BIG M-X

Make the Big 'M-x' models perform all the tough jobs that real trucks and lorries can. Place the Power Activator into the Big 'M-x' drive points and the models are ready for some hard working action. Running along the track, lifting loads, erecting buildings – however big the task you and the "MATCHBOX" Big 'M-x' team are ready to take it on.

## Power Activator BM-A

The Power Activator controls all the Big 'M-x' action. The two way power switch moves models backwards and forwards, to the left or right or up or down.

### Fire Rescue Scene with Mechanised Fire Engine BM-6

Can you rescue people from burning houses? Learn all about fire fighting with the Big 'M-x' Fire Engine. The Power Activator revolves the turntable and raises and lowers and alters the angle of the ladder. It is a tricky operation and has to be completed before the fire takes control.

### Mechanised Incinerator Site and Refuse Truck BM-1

Look after rubbish disposal with this set.

With the Big 'M-x' Power Activator you can back the Refuse Truck into position at the incinerator. Then raise the rear of the truck to unload the refuse onto the conveyor which carries it into the incinerator.

### **Mechanised Crane Truck and Building Site BM-3**

Can you assemble the buildings using the crane? With the Big 'M-x' Power Activator you can move the arm of the crane from left to right end up and down. Lower each piece carefully into position to build your own shopping centre.

### **Mechanised Tractor Plant and Winch Transporter BM-2**

Drive the Transporter to the Trector Factory where three brand new vehicles are awaiting collection. When the Transporter has been parked in front of the Factory connect the power winch to each tractor in turn and load them onto the back of the truck.

**Mechanised Coal Delivery Hopper and Tipper Truck BM-4**  
Take control of the next coal delivery. Using the Big 'M-x' Power Activator back the tipper up the track and raise the tipping gear to unload the coal. The coal is then carried away on the power conveyor.

**Mechanised Quarry Site and Traxcavator BM-5**  
Take charge of quarry clearing when you take control of the Traxcavator. The Big 'M-x' Power Activator enables you to move the model on its tracks and also lift and dump loads with the large mechanical shovel.

# **LIVE-N-LEARN**

The new Live-N-Learn series of pre-school toys is designed to teach your children basic skills while playing. Each set is fun to play with and performs a different movement which is controlled by the turn of the handle. Four of this series are musical.

CP-1

# "MATCHBOX" CARPOW!

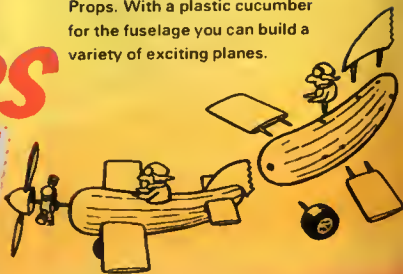

Can you hit the moving car with the "MATCHBOX" model? Roll the model down the slope and CAR-POW, the target explodes into three pieces.

How many times can you explode the car before the arm stops swinging.

# PLUG PROPS

Be an aero designer with Plug Props. With a plastic cucumber for the fuselage you can build a variety of exciting planes.

# PLUG BUGGIES

Can you build the world's fastest carrot?

"MATCHBOX" has thought of a way of turning any fruit or vegetable into a model that you build yourself. A Plug Buggy kit contains wheels, axles, radiator, engine, driver and even a plastic vegetable. All you have to do is put them together to make the world's wheekiess model.

# **MATCHBOX** station maker

Be a garage designer with a "MATCHBOX" Station Maker. Station Maker contains all the necessary parts for you to build a garage to your own shape and size. Multi-storey or on one level – the choice is yours to build a garage best suited to your "MATCHBOX" Collection.

**SM-1 Station Maker** –  
54 pieces.

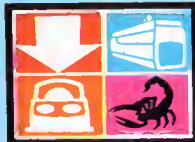

**SM-2 Super Station  
Maker** – 92 pieces.

**SM-3 Giant Station Maker**  
– 140 pieces.

# "MATCHBOX" SUPERFAST

All through the year "MATCHBOX's" brilliant design team has been working hard to produce the exciting 1972 range of "MATCHBOX" models. Working under conditions of great secrecy these men have spent many months perfecting additions to the "MATCHBOX" range. Now these leaders in model car styles are revealed for the first time. See the exciting new '72 colours; wild glowing pinks and greens – a superb, startling choice of metallic reds and golds – all carefully mixed and selected by the "MATCHBOX" paint experts to their own secret blends. Watch out for all these models in your local shop so that you can see the work of the world's leading model designers.

Watch out for these symbols on the boxes so that you know how to obtain the greatest fun from cars and track.
